Hi Sayantika,

Thank you very much for taking your time to apply to the [REDACTED] program and for your patience while we sorted through our applicant pool.

Unfortunately your proposal has not been accepted. We want to encourage you to continue to explore those areas that interest you most and truly appreciate that you found [REDACTED] to be compelling enough to submit a proposal.

IN HER WORDS:

*“Let's rise together,
collaborate, build and
embark on our journeys
with open source.”*

redhatjobs Meet Sayantika Banik, a 2019 Women in Open Source Academic finalist. Sayantika is a student at Sir M. Visvesvaraya Institute of Technology. Her open source journey began three years ago when witnessing a tragic car accident inspired her to develop an open source IoT solution called Terrain Smart Safety System (TSSS). We'll introduce a different community and academic finalist each day this week. Read about all the finalists and cast your vote for the winners today. Link in bio #womenintech #womeninopensource

I/O 2019

A person's hands are holding a smartphone. The phone's screen shows a document with horizontal lines, suggesting a note-taking or editing app. Overlaid on the image is a large, semi-transparent dark rectangle containing white text. A solid red vertical bar is positioned on the right side of the image.

DON'T GIVE UP
